EXPERIENCE

TRAINEE SOFTWARE DEVELOPER

_nology | January - April 2020 | London, UK

Full-time immersive Front-End Development course, self-funded.

- Gained technical skills and strengthened soft skills working on a variety of personal projects and as part of an agile team, pair programming. Delivered a prototype web app for an external client in the music industry.
- Took on the role of Project Facilitator during one of the sprints which involved managing comms between the team and the Product Owner, leading planning sessions, running daily stand-ups, an end of sprint retrospective and delivering a demo of features built during the sprint.

DATA & SYSTEMS MANAGER

The Restaurant Group | June 2017 - Jan 2020 | London, UK

A role centred on managing and developing systems/processes within the Purchasing team. Key contributions included:

- Increasing team efficiency by developing accessible and time-saving systems and processes. Identifying areas of operational improvement and creation of development roadmaps.
- Working with third-party Software Developers to implement feature changes. Collaborating to hit deadlines within agreed budgets.
- Ensuring data compliance across systems used by Head Office and an estate of over 500 restaurants.
- Managing non-technical projects - Planning a Supplier Conference with over 100 suppliers as guests. Organising the guest list, venue, golf tournament, a charity auction and thoughtful touches to catering. Raising £27k for partner charity, Cancer Research UK.

DATA CO-ORDINATOR & PA TO PURCHASING DIRECTOR

The Restaurant Group | Dec 2015 - May 2017 | London, UK

- Maintained Purchasing data with impeccable accuracy; product, telecommunication and supplier data. Liaised with Senior Management, Buyers, Supply Chain, Food Technical as well as external Suppliers.
- Provided PA support to Purchasing Director. Coordinated diaries and travel, minuted meetings and proof read reports. Role allowed valuable insight into senior team responsibilities and commercial awareness.
